ŞAHİNKUL

Environmental Policy

1. Purpose

The purpose of this policy is to establish our company's approach and fundamental principles for responsibly managing its environmental impacts while carrying out its business activities.Our company aims to contribute to the protection of natural resources, reduce environmental impacts, and support a sustainable production approach.

2. Scope

This policy covers:

- All employees of our company,
- Managers,
- Production and support processes,
- Suppliers and business partners.

Our company undertakes to comply with applicable environmental legislation and relevant standards while carrying out its activities.

---

3. Fundamental Principles

Reduction of Environmental Impacts

Necessary measures are taken to reduce the environmental impacts arising from our activities, and continuous improvement of environmental performance is pursued.

Efficient Use of Natural Resources

The effective and efficient use of energy, water, and other natural resources is encouraged in order to reduce resource consumption and environmental impacts, while ensuring the sustainability of energy and resource efficiency.Our company is committed to contributing to climate change adaptation efforts and taking into consideration the protection of biodiversity and ecosystems in order to protect the environment.

Waste Management

Measures are taken to reduce waste generation, increase recovery and recycling, and ensure that waste is managed in a manner that does not harm the environment.

Compliance with Legislation

Company activities are carried out in compliance with applicable environmental legislation and relevant standards.

Employee Awareness

Training and awareness-raising activities are conducted to improve employees' environmental awareness.

Continuous Improvement

Environmental performance is regularly monitored within the scope of the Environmental Management System, and a continuous improvement approach is adopted.

---

4. Responsibilities

- Top Management supports the implementation of the Environmental Policy and provides the necessary resources.
- Managers ensure that environmental management practices are implemented within their areas of responsibility.
- The units responsible for environmental management carry out the necessary activities to monitor and improve environmental performance.
- All employees act with a sense of responsibility for environmental protection and comply with applicable environmental rules.

5. Validation

This policy shall enter into force upon approval by the Board of Directors and shall be binding on all employees and relevant stakeholders within the scope of the company's activities.The policy is reviewed at regular intervals and updated in line with the objective of improving environmental performance.
